

JinkoSolar Delivers 20MWh SunTera Energy Storage System to Baizhang Wind Farm

JKE-3440K-2H-LAA

Liquid cooling energy storage system

SunTera is JinkoSolar's new generation of liquid cooling energy storage product, which is equipped with 280Ah LFP cells and integrated with the industry's advanced design are expt. SupToraic and activities to be continued to uphold the mission of changing the energy structure and taking responsibility for the future to provide more reliable products and better experience to customers within a product and a

Safe and reliable

- Separated battery and electrical compartment design to effectively avoid thermal runaway
- Multi-level fire warning to monitor early thermal runaway

Excellent performance

- Highly efficient liquid cooling technology, the temperature difference of cleic is comobined within 2.37 without a effectively improve the system if the
- Intelligent cluster-level management to improve system
 discharge level

Flexible configuration.

- Modular design to ευρροστ 1000V /1500V systems.
- Compatible with many tieনন চুহুছে চাফেন্ট্রাচ্চ providing flexible and customized solutions.

Cost reduction and efficiency
